

ETI Impact Assessment

Introducing the project

Man-Kwun Chan

Head of Communications & Research, ETI

12 May 2005

Why?

- ETI member companies commit to implementing the ETI Base Code
- Time to take stock - what impact on workers?

What?

- Workers within supply chains
- Other groups (eg, families, communities, producers)
- Measuring impact, improving impact, developing tools, sharing learning

What it is not...

- Assessment of ETI tripartite activities
- CBA of impact on suppliers
- Comparison of ETI Base Code vs other codes
- “Proof” of impact in a statistical sense

Who?

- ETI ↔ IDS Sussex ↔ local researchers
- Members' steering group

How?

- Phase 1 → Phase 2 → Phase 3

When?

- Phase 1 started in August 2003
- Further dissemination of findings between now and end of 2005
